

Installation & Construction Equipment Repair

Heavy equipment used for construction, installation or farming can be very difficult to maintain. Many of our customers are stuck between a rock and hard place—replace the equipment which is very costly or try to use until out of service. At Valley Fabrication in LaSalle, Illinois we have been working with our customers for over 45 years in cost-effective, custom repairs on equipment. We help to extend overall lifetime, improve productivity, and maintain safety standards. Questions, call us at 815-223-4058.
